Satvik Raman

satvikraman.edu@gmail.com | satvikraman.github.io

Who Am I?

- **Curious.** Study economics, mathematics and finance to understand how businesses and economic decisions shape the world.
- **Enterprising.** Build automations and tools to streamline tasks and aid decision-making.
- **Empathetic.** Create social equity by breaking language and economic barriers via technology.
- **Athletic.** Compete at national and state levels, developing discipline, teamwork, and strategic thinking.

Education

Sri Kumaran's Children's Home School *Grade 12, CBSE*
Mathematics, Economics, Business Studies, Accountancy, English
Grade 10 CBSE Board Results (Mathematics, Science, Social Science, German, English): **95.6%**
AP Microeconomics: **5/5** | AP Macroeconomics: **5/5** | AP Statistics: **4/5**
SAT: **1430** *(Math: 760 | Reading and Writing: 670)*
IELTS: **8.5**

Leadership

School Prefect *2026 – 2027*
Sri Kumaran's Children's Home School

- Represent the student body through student council leadership; maintain discipline and coordinate literary festivals, school events, and student activities.

Rotational Captain, Football *2023 – 2026*
Bengaluru FC / Sri Kumaran's Children's Home School

- Selected for Bengaluru FC's Young Blue Elite U17 and U19 – elite development squads within BFC's AIFF 5-star accredited academy pathway – and served as rotational captain across Karnataka State Football Association (KSFA) and All India Football Federation (AIFF)-affiliated tournaments.
- Captained the school football team in inter-school matches at Karnataka state-level tournaments.

Organizer, Kumaran's Vyapar Finance Event *July 2026*
Sri Kumaran's Children's Home School

- Designed and conducted finance simulation rounds for the Gambit event in Vyapar, challenging participants to attract companies as VCs, make buy/sell investment decisions in response to market news, and resolve company crises using a case study.

Research Experience

Financial Literacy in Bangalore Gig Workers *2025 – 2026*
Sole Author & Field Researcher

- Authored an empirical research paper examining financial literacy among Bangalore's gig workers.
- Administered a survey on numerical ability, financial knowledge, and financial awareness to a focus group of 40 gig workers at the Mphasis Sustainability Research Lab, Indian Institute of Science (IISc), and analyzed responses using Bayesian logistic regression.
- Examined the relationship between financial literacy and worker demographics; proposed policy interventions and published the findings on SSRN.

The AI-Gig Paradox (Literature Review) *2026*
Sole Author

- Conducted a thematic economics literature review on algorithmic management, information asymmetry, labor-market segmentation, and income volatility in India's gig economy.
- Synthesized principal-agent theory, technological change, labor market segmentation, and consumption smoothing to examine why financial literacy may be necessary but insufficient to address worker insecurity.
- Identified gaps in India-specific evidence and examined institutional responses that could complement financial literacy; published the review on SSRN.

Entrepreneurship

Systematick *2025 – Present*
Founder & Solo Builder systematick.in

- Independently built a SaaS stock-screening and backtesting platform; used by 250+ retail investors to create, test, and deploy technical-indicator-based trading strategies.
- Designed browser-based strategy computation to reduce server-side costs and support affordable access to quantitative investing tools.
- Incorporated historical index constituents and delisted stocks into backtesting to reduce survivorship bias and improve the realism of historical strategy evaluation.

Internships

StockEngineering *Apr – May 2026*
Quantitative Research Intern stockengineering.in

- Created and back-tested quantitative trading algorithms for option strategies, applying statistics to historical market data using rolling windows to test robustness across market conditions.

Tenacity Ventures *Mar – Apr 2025*
Intern tenacity.vc

- Studied venture capital across stages of company growth; evaluated portfolio company Purplle across market opportunity, business model, competitive positioning, private-label strategy, pricing, and growth potential.
- Researched India's deep-tech ecosystem across AI, robotics, biotechnology, quantum technologies, semiconductors, clean-tech, cybersecurity, and space technology, identifying emerging investment themes and companies.

Dessert Rose (Patisserie) *Jun – Nov 2025*
Paid Intern instagram.com/dessertrose.in

- Managed the patisserie's Instagram presence, planning posts and increasing audience engagement as it expanded its online reach.
- Grew the account's followership to ~1K while working directly on content and social-media execution.

Academic Competitions & Recognition

- **AP Scholar Award** – College Board, July 2026: Recognized for scoring 3 or higher on three or more AP Exams (Microeconomics 5, Macroeconomics 5, Statistics 4).
- **Outstanding Delegate, United Nations Security Council** – KMUN, July 2026: Recognized as Outstanding Delegate (runner-up) representing France on international security and foreign policy.
- **Runner-Up, Kalaanjali Finance Event**, 2025: Placed second in a stock market simulation and trading competition applying investment analysis and financial decision-making.
- **National Winner, Google Code to Learn**, 2019: Developed an Android application to import, share, and solve Sudoku puzzles of varying grid sizes.
- **Participant, Berkeley Economic Review High School Essay Contest**, 2026: Examined AI's impact on labor-market polarization and income distribution. Used task-based models and skill-biased technological change to propose tax parity and lifelong learning accounts as policy responses.
- **Participant, Wolves of Wall Street** – Harvard Student Mentor-Led Contest, 2025: Developed and managed a sim-

ulated investment portfolio over a 12-week global competition under Harvard student mentorship. Used fundamental analysis, portfolio diversification and risk-management principles.

Sports Achievements & Honors

Football *2016 – 2026*

- Played competitive football for over a decade across Boca Juniors (2016–17), Bangalore Premier Soccer School (2017–19), and Bengaluru FC Soccer School (2022–23).
- Selected for Bengaluru FC's Young Blue Elite U17 and U19 teams (2023–2026).
- Competed in KSFA, AIFF-affiliated, and other club-level tournaments.

Basketball *2025*

- Winner – Played for Sri Kumaran's Children's Home School at the RA Devi Memorial Inter-School Basketball Tournament, 2025.

Table Tennis *2019 – 2020*

- Ranked 19th in Karnataka state for table tennis.
- Runner-Up – Karnataka State-level CBSE Clusters TT Tournament, 2020.
- Winner – Karnataka State CBSE Clusters TT Tournament, 2019.
- Participant – National-level CBSE Clusters TT Tournament, Noorpur, Uttar Pradesh, 2019.

Tennis *2026*

- Participant – South Zone Cluster Tennis Championship, competing against leading Karnataka school teams, 2026.

Technical Projects

Automated Stock Trading System *2024 – 2026*
Builder github.com/satvikraman/trading

- Built an open-source automated trading system integrating broker APIs and web scraping to fetch broker recommendations from ICICI Direct and Paytm Money, fed via a custom GUI; execution through broker APIs eliminates the need for manual order placement or daily intervention.

Multilingual Vernacular Voicebot *2023*
Builder vernacular-voice-bot.firebaseapp.com

- Built a multilingual voicebot prototype for IISc's rural finance-access research project, "Enabling Equal Finance Access for Rural Customers in India," funded by the Bill & Melinda Gates Foundation's Global Grand Challenges; self-hosted it for access via Telegram or phone calls, including on feature phones.

Community & Social Impact

Bizkit *Mar 2024 – Present*
Founder & Writer bizkit.co.in

- Founded and write a weekly blog explaining economic concepts through current business and financial-market stories, in English, Hindi, Kannada, Tamil, Telugu, and German.
- Published 125+ posts for 500+ readers, aimed at students who are more comfortable learning economics in their native language.

Skills & Interests

- **Future Plans:** Intend to pursue Economics and Mathematics at the undergraduate level; become an entrepreneur.
- **Languages:** English, German (B1 certified), Hindi, Kannada, Tamil.
- **Interests:** Health & fitness, building tools and automations, reading non-fiction books.
